

NEW TO RACING? HERE ARE TYPES OF WAGERS AND HOW TO BET

HOW TO CALL ALL BETS: Name of track--how much--what kind of bet--horse number(s)

Example: "ASD \$5 to win on number 4."

WIN, PLACE, SHOW

If you bet a horse to win, he must win. If you bet a horse to place, your horse can finish 1st or 2nd. If you bet a horse to show, you cash if your horse finishes 1st, 2nd or 3rd.

QUINELLA AND EXACTOR

A quinella requires you to select two horses to finish 1st and 2nd in either order. An exactor requires you to exactly predict the right order.

TRIACTOR

You must select three horses in the right order.

SUPERFACTA

You must select four finishers in the correct order. **HINT:** Ask for a 20-cent box on any four horses. Cost: \$4.80. (See what "box" means below.)

OTHER BETS

Daily doubles: Pick winners in two consecutive races

Pick 3s: Pick winners in three consecutive races

Pick 4: Pick winners of the last four races
Super High 5 (on the last race): Predict the top five finishers in the correct order.

Minimum wagers: From 20-cents per combination for superfecta, triactor & pick 3 bets to \$2 for win/place/show. Mutuel sellers will gladly help you with minimum wagers.

FAN EDUCATION KIOSK

(located on the main floor)

New to the races? Questions about wagering?

Stop by the horse racing kiosk located on the main floor and they will assist you with the following:

How to read a program

How to make a bet

Understanding horse racing terms

Learn how to analyze a race

WHAT IS A BOX?

You say "box" when you want your horses to finish in any order. You may take 2, 3, 4, 5 or more horses. Just say "box."

Example:

"Give me a \$1 exactor box on #2, 3, 6."
(Cost \$6)

"Give me a \$1 triactor box on #4, 5, 7."
(Cost \$6)

"Give me a \$1 triactor box on #4, 5, 7, 8."
(Cost \$24)

"Give me a 20-cent superfecta box on #1, 4, 5, 6."
(Cost \$4.80)

"Give me a 20-cent superfecta box on #1, 4, 5, 6, 8."
(Cost \$24)

WHAT IS A WHEEL?

In a wheel, you designate the positions you think the horses will finish in.

Example: "Give me a \$1 triactor wheel. #2 with #4, 5, 6 with #4, 5, 6, 7." (#2 must win, #4, 5 or 6 must finish second and #4, 5, 6 or 7 must finish third. Note the use of the word "with" to indicate the transition from first to second to third positions.)

NEED HELP? Ask a mutuel clerk. Go to ASDowns.com and watch "How to bet like a pro." Good luck!

UNDERSTAND THE ODDS - PAYOFFS FOR A \$2 WIN BET

2-5 pays \$2.80	1-1 pays \$4.00	3-2 pays \$5.00	2-1 pays \$6.00	7-2 pays \$9.00	5-1 pays \$12.00
3-5 pays \$3.20	6-5 pays \$4.40	8-5 pays \$5.20	5-2 pays \$7.00	4-1 pays \$10.00	6-1 pays \$14.00
4-5 pays \$3.60	7-5 pays \$4.80	9-5 pays \$5.60	3-1 pays \$8.00	9-2 pays \$11.00	8-1 pays \$18.00
